Let's Start!

There's nothing quite like the Manhattan skyline!

Learning Outcome

Accurately use information about directions to places in a limited range of social situations.

Can Do Statements

- I can talk about places in a city.
- I can ask for and give directions.
- I can tell someone where something is located.

Ask your partner:

- Are there skylines in your city or town? Do you like them?
- Are you afraid of heights? Why? Why not?
- What is the tallest building you have visited?

Let's Explore!

Sally visits a New York **icon***: The Empire State Building (ESB). It is featured in many movies!

* An "icon" is a very popular symbol.

Instructions: Read the text aloud.

ESB Guide: You don't know New York until you see it from the top of the Empire State Building. Millions of tourists visit this building every year.

Sally: Where can I get the best view of Manhattan?

ESB Guide: Take the elevator to the viewing platform. Then, exit the elevator and walk through the glass doors on the left. Standing on the 102nd floor on a clear day, you can see as far as the countryside.

Sally: When is the best time to go on the platform?

ESB Guide: Anytime. At night, the skyscraper looks incredible from the outside, all lit up. On special days there are light shows.

Sally: What else is inside the building?

ESB guide: Inside the building, there are offices, restaurants, shops and banks. Visitors can also enjoy a "New York Skyline" movie, concert and exhibition.
